PROFILE SUMMARY

Motivated BCA student with a strong foundation in programming, web development, databases, and computer networks. Hands-on experience developing full-stack applications using React.js, Node.js, Express.js, and MongoDB. Quick learner with strong problem-solving, analytical, communication, and teamwork skills. Eager to contribute to a professional software development environment.

EDUCATION

HKBK Degree College 2024-2027
Bachelor of Computer Application
GPA: 9.01 (Current)

Noble Saint College 2024
PUC
Percentage: 90%

Skills

Programming Languages: Python, Java, C, JavaScript, SQL
Web Technologies: HTML, CSS, React.js
Backend: Node.js, Express.js
Database: MongoDB, MySQL
Networking: Computer Networks, Cisco Packet Tracer, TCP/IP, IP Addressing
Operating Systems: Windows, Linux

Experience

Full-Stack Development Intern — EduPhoenix Solutions August-2026

- Gained hands-on experience in full-stack web development and application development.
- Worked with frontend, backend, REST APIs, and database technologies to build functional web applications.
- Applied programming and problem-solving skills to develop, test, and improve application features.

Full Stack Web Development Intern – Future Interns October-2026

- Developing full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Building practical projects, including a Mini CRM system, with REST APIs, database integration, and secure authentication.
- Improving technical skills through hands-on development, debugging, and implementation of real-world application features.

Projects

FurniRent – Furniture Rental Website. August 2026
React.js, Node.js, Express.js, MongoDB, Mongoose
Live Demo : https://furnirent.onrender.com/

- Developed a full-stack furniture rental platform with user and admin features.
- Built REST APIs for managing furniture, users, and rental orders.
- Implemented MongoDB database integration and responsive UI.

Student Management System August 2026
HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Developing a full-stack system to manage student records, attendance, marks, and courses.
- Built REST APIs for managing student and academic data.
- Implemented an admin interface for managing student information.

LeadFlow – Client Lead Management System (Mini CRM) September-2026
Technologies: React.js, Node.js, Express.js, MongoDB, JWT

Live Demo : https://leadflow-frontend-omega.vercel.app/

- Developed a full-stack CRM application to manage customer leads through an interactive admin dashboard.
- Implemented CRUD operations, search, status filtering, and follow-up tracking using MongoDB.
- Integrated JWT-based authentication to secure admin access and protect lead management operations.

Cafe Pink – Business Website Development October_2026
Technologies: HTML5, CSS3, JavaScript

- Developed a professional website for Cafe Pink, a real café located in Hauz Khas Village, New Delhi.
- Designed an attractive, responsive interface showcasing the café's menu, ambience, contact information, and location.
- Improved the café's online presence by creating a user-friendly website to help customers explore its offerings and find the business.

Certifications

•Introduction to Cloud Computing November 2025
•Computer Network & Internet Security May 2026
•Java for Beginners December 2025
•Generative AI Literacy September 2025
• Cloud Computing Basics November 2025

Soft Skills

• Communication Skills
• Quick learner
• Problem solving
• Teamwork and Collaboration
• Time Management

Languages

• English
• Hindi
